- ☑️ Attended Value Addition Program of ViMEET and built projects in languages such as C, Java, MEAN stack and ML.

### WORK EXPERIENCE

Merkle Sokrati (Dentsu Aegis Network) - Pune, India

- **Software Design Engineer I**  
(July 2021 - Present | Pune, India)
  - 1-year experience as Full Stack Developer for multiple projects using MERN stack, HTML, CSS, JavaScript, and jQuery.
  - Designed and deployed 7 lambda services and created CI/CD pipelines using GitHub Actions, AWS CodeDeploy, and EC2.
  - Revamped existing APIs and improved the API response time by 90% by including Redis and Solr as cache and search services.
  - Recreated the existing Admin panel using React.js and Redux which added a performance boost as well as room for various features.
- **Associate Software Design Engineer (Internship)**  
(May 2021 - June 2021 | Pune, India)
  - Completed 1 Month of internship as a backend developer using Node.js and received full-time offer.

### EDUCATION

Vishwaniketan's iMEET, Khalapur

BE in Computer Science (University of Mumbai) | 2021 with CGPA: 7.85

Private High School and Junior College

HSC(Maharashtra State Board) | 2017 with Percentage: 69.69%

PSMS Secondary School, Pen

SSC(Maharashtra State Board) | 2015 with Percentage: 73.60%

### KEY PROJECTS

Utech by Ultratech

React, Nodejs, Express, MySQL, Redis, Solr

Duration: 10 Months

- Worked as a full-stack web developer using technologies such as MySQL, Express, React, and Node.js.
- Created 70+ APIs, Events, Lambdas, and Socket.io sockets to support the Utech app as well as Admin Panel.
- Added support for Solr and Redis which improved the performance of old APIs by 90%, and also designed schema validation checks which reduced the 500 error.
- Revamped the existing Utech admin panel website and created it using React, and Redux which improved the performance as well as the lighthouse report.
